RECEIVING YOUR LAPTOP
Laptops will be distributed during the beginning of the school year. Students along with their parents will sign and return the Laptop Acceptable Usage plan before the laptop is issued. Laptops will be collected at the end of each school year for maintenance, cleaning, and software installations. Students will return their original laptop each year.

PROTECTING YOUR LAPTOP

Awareness is the best protection for any electronic device. Keeping an eye on your device or knowing where it is at all times is the best practice to avoid issues. To protect against mechanical issues, use the laptop in a practical setting and avoid moving it around while it’s running.

If stickers have or appeared to be falling off, student should take laptop and sticker to the technology coordinator immediately.

Under no circumstances should laptops be left in unsupervised areas. Any computer left unsupervised is in danger of being stolen. Unsupervised laptops will be confiscated by staff and taken to the principal’s office. Disciplinary action may be taken for leaving your laptop in an unsupervised location.

3. If a student has an issue with his/her laptop while at home, the student must fill out the necessary form and submit it the following school day to the technology office.
4. If the Marion Local Schools Technology Department does not have an immediate resolution, and the unit is inoperable, the student will be issued a loaner laptop upon availability to use during the school day until the problem with their laptop has been resolved. Student will not be allowed to bring loaner device home.
5. Students will be notified when their issue has been resolved.

Service and repairs will be documented and reviewed to ensure the proper use and/or maintenance of the laptops. Excessive requests for service/repair is subject to review by the school administration. A student with two or more major repairs in one year will lose the right to bring their laptop home.

Children's Internet Protection Act (CIPA)
The Children's Internet Protection Act was put in place to help control and limit access to unacceptable, vulgar, illegal, and offensive content in public places like schools and libraries.

Filtering
Marion Local School District runs filters on all internet connections to help prevent access to pornographic, obscene, and any other content that may be harmful to minors. Marion Local School District staff will be present to supervise students. The filtering content is updated on a constant basis so that harmful content is being blocked.

Access by minors to harmful content
Since filters are not perfect, staff is instructed to supervise the computers the students are using to assure no harmful content is accessed. In the case harmful content is accidentally accessed, students are to immediately report the incident to the staff member that is in the presence of the computer, and the staff member is to report the harmful content to the network administrator or technology coordinator so that the content can be manually blocked. If a minor purposefully tries accessing or gets access to harmful content, that minor’s privileges can be taken away for computer and internet access. Other consequences will be determined by the administrator for the violation. The harmful content will then be manually blocked if the filter missed it.

Unauthorized access
Using tools and/or techniques to circumvent or bypass current security configurations (“hacking”) will be considered a violation of this policy and will be subject to disciplinary procedures as outlined. Hacking tools are explicitly prohibited. Any unlawful activities are strictly prohibited and the offender will be prosecuted in accordance with state law.

Unauthorized disclosure
Unauthorized disclosure, use, and dissemination of personal identification information regarding minors is strictly prohibited. Staff should take all precautions necessary to insure students’ identification safety.
Enforcement

Violations of the policy will be handled consistent with Marion Local School District disciplinary procedures applicable to the relevant person or persons. Student violations may be subject to warnings, suspend, blocked, or restricted access to network resources, detention, and suspension of school activities and/or suspended from school.

Violations of state and federal laws will result in legal prosecution. Examples of these laws include but are not limited to: Cyber Laws, Federal Communities Laws, Federal Wire Tap Laws, Homeland Security Act, National Information Infrastructure Protection Act of 1996, Computer Fraud and Abuse Act, Electronic Communications Privacy Act, Children’s Online Privacy Protection Act, and Digital Millennium Copyright Act.
